Passport # _____ / _____ / _____
Other: _____ Month Day Year

Landlord Name: _____

Landlord Address: Street No. Street Name City / Area/Town

Telephone Number: _____

I wish to apply for a supply of electricity in accordance with the GPL Inc.'s Standard Terms and Conditions for Electricity Supply upon the following terms and conditions specified below which I hereby understand and accept: -

1. That due to the unprecedented demand for prepaid metered services, GPL Inc. is unable to supply me with a prepaid meter since its stock of prepaid meters has significantly depleted.
2. That GPL Inc. will provide me with a prepaid meter after its suppliers deliver its prepaid meters ordered.
3. That in the interim, I have agreed to accept a post-paid meter since I require a supply of electricity to my premises and GPL Inc. has agreed to provide me with a post-paid meter until a pre-paid meter is available.
4. That in consideration of this interim arrangement, I agree to make a minimum monthly payment of four thousand dollars (\$4,000) on or before the fifth (5) day of every month towards my account to offset the estimated charges for electricity I would have consumed while using the post-paid meter in the interim
5. That should I fail to make the minimum payments within the time agreed, I shall be liable for disconnection by GPL Inc. until all outstanding payments are made or until such time as a pre-paid meter is available to replace the post-paid meter installed, whichever is the earlier.
6. That the actual amount owed to GPL Inc. for electricity I consumed during the use of the post-paid meter and for which I am liable to pay GPL Inc. for shall be determined when the post paid meter is replaced with a pre paid meter and the final reading is taken from the post paid meter.
7. That all sums owed to GPL Inc. by me will be immediately transferred to my pre paid account when the pre-paid meter is installed and must be paid before any electricity tokens for the prepaid meter can be issued to me.

COMMENTS:

Application is deemed to have satisfied the company's Standard Terms and Conditions for an Electric Service if:
 1. Proof of legal occupancy has been established via presentation of a certified copy of transport, certified copy of title, lease and/or tenancy agreement
 2. Proof of identification (Valid Passport, National identification Card)
 3. A maximum of 60 feet of secondary cable is allowed free of charge from the customer a point of entry to the nearest secondary pole / connection point
 4. The installed capacity does not exceed 60 amperes (as noted on Certificate of Inspection provided by the applicant); otherwise a technical investigation will be conducted to determine the network capacity and whether you will be required to make (pay) a capital contribution.

Note: Should subsequent investigation by the company reveal any amounts owing from previous or existing electricity accounts, the company reserves the right to transfer these amounts to this account.

I hereby declare that I have accepted the terms as set out in this Agreement and that I have signed this Agreement of my own free will and under no duress.

IN WITNESS WHEREOF the Parties have hereunder set their hands upon the date first above written in the presence of each other and of the subscribing witnesses hereto.

Guyana Power & Light Inc.
